OBJECTIVE

I am eager to be challenged in order to grow and further improve my IT skills . My greatest passion in life is using my technical know - how to benefit other people and organizations .

WORK EXPERIENCE

Graphic Designer

2020 - Ongoing

FREELANCING

I have been working as a freelance graphics designer since of 2022. I have good experience in cover page design, logo creation, social media banners, flyers, leaflets, brochures, invitation and banner designs. I also have experience in basic video editing and UI design.

PROJECT

Coffee Shop System (PHP & MySQL)

2023

For Fathima Coffee Hut

The Coffee Shop System is a tech-driven solution using PHP, CSS, Bootstrap, and JavaScript to enhance coffee shop operations. It enables online ordering, menu management, payment integration, loyalty programs, and analytics, improving both customer experience and shop efficiency.

E-Commerce Site (PHP & MySQL)

2023

For College Project

The E-commerce site project is an innovative web app using PHP, CSS, Bootstrap, and JavaScript. It aims to revolutionize online shopping by offering a user-friendly platform for businesses and consumers. It addresses challenges like complex interfaces and security concerns, prioritizing ease of use and security. Key features include a streamlined UI, robust admin tools, Google ReCaptcha, and PayPal integration.
